## PROFILE INFO

I am 53 years old..I used to work in Aramco Yanbu (operational technician) and held several degrees over the course of 30 years of specialized experience and retired early in 2020. My hobby is photography and videography, as well as aerial photography with drones and a photographer accredited by Aramco in a refinery Yanbu, I live in Yanbu, I am married, I have 5 daughters and 2 sons. I have ambition and passion in the world of photography, and I have work skills such as carrying burdens, the ability to work with a team, the ability to solve problems and crises, and deal with others.

## WORK EXPERIENCE

SAUDI ARAMCO  
AREA 4 FOREMAN FEB 1992 - DEC 2020

I trained at Aramco from 1990 for two years, then I started my career at the Yanbu Refinery and started the progression from a job title as a technical operator within the units to a controller in the control room and then a shift chief until I reached the supervisor of the 4th Operations Unit at job grade 12. And I retired in end of 2020 as an early retirement. I worked with all the challenges that were facing us and learned from the exciting experiences and benefited from the experience of those who preceded me in my field of work.

SAUDI ARAMCO  
PHOTOGRAPHER MAR 2014 - DEC 2020

Photography started with me from childhood when I was 10 years old at the time, and I continued to love this hobby and develop my skills by taking courses and traveling with groups for photography in many countries, and in the end Aramco took care of my talent and I was assigned to the photography department of the Yanbu Refinery, so I became a certified photographer I have Aramco in the western region to film the visits of the company's president and senior managers, and the company's confidence in me carried great meanings.

## MY EDUCATION
